

AJISEGIRI TOLANI(TOLAN DESIGNS)

Product Designer

+234-9123-911395 | Omotolanifolashade9@gmail.com | Lagos, Nigeria

PROFILE

I'm a creative user-focused Product Designer with **4+ years** of experience. I'm constantly honing my skills and staying up-to-date with the latest design trends and technologies. I'm also a brand/cloth designer, and I love exploring various mediums and techniques to create captivating visual narratives that evoke emotions and tell compelling stories. I thrive in dynamic, cross-functional teams, and I'm always looking for ways to collaborate with others to create something even better. I pay close attention to detail and focus on the user, so my work is both visually appealing and functional. I love learning on the go.

WORK EXPERIENCE

Kolak Hospital(HMS)
jan 2025 - April 2025
(Nigeria)

Mid-level Product designer

Led the design process for Kolak Hospital, the hospital needed a functional management system, i worked on it ensuring a seamless and engaging user experience.

Created a User-Friendly Dashboard and developed an intuitive and visually appealing dashboard, enhancing user interaction and accessibility.

Collaborated on various design initiatives, contributing to the creation of a unique and cohesive interface across the platform.

Prioritized user needs and feedback, resulting in a product that is both functional and aesthetically pleasing.

Worked closely with developers, marketers, and other stakeholders to ensure the design vision was aligned with business goals and technical feasibility.

Gathered user feedback through research and usability testing to inform design decisions and improve the overall user experience

Dinosco
march 2024 -
November 2025
(Singapore)

Head of Design Team

Led the design process for Dinosco, I created brand assets, design systems, and web based platforms

Aside from that, I utilized qualitative and quantitative research methods, including surveys, interviews, and usability testing.

Created wireframes, user flows, and interactive prototypes to visualize design concepts.

Facilitated design review sessions and provided constructive feedback to team members.

Utilized design tools, Figma, Illustrator, and Photoshop to create high-fidelity prototypes and mockups.

Readymonie MFB
2023 - 2024
(Nigeria)

Junior Product Designer

Conducted UX research on the product with the team and created both Low Fi and Hi-Fi designs.

Led the product design team and provided direction and support throughout the project.

Worked closely with developers to ensure that the approved designs were accurately implemented.

Made necessary iterations to the design upon request after market testing.
Prototyped final solution and conducted usability testin
